**New!! GHW launches Spanish version of the Website**  
[www.ghwatch.org](http://www.ghwatch.org)

We are pleased to announce the launch Spanish version of our Website. It contains all the basic information about this initiative: its origins, aims, co-ordination organisations, as well as an outline of the structure of the 2005 GHW Report and the ways in which individuals and organisations can become involved. **Please send it to all your Spanish speaking colleagues that might be interested!**

**Get involved! Time to submit Case Studies**

The GHW is putting out a call for the submission of country or region-specific case studies. These case studies will form part of the electronic accompaniment to the *alternative* World Health Report to be launched in July 2005 at the Peoples health Assembly in Ecuador. Some examples of case studies are:

- Positive and negative examples of policies and actions to secure improved and equitable access to health care.
- Examples of effective, efficient and inclusive public health care systems.
- Evidence showing the negative effects of commercialised health care on professional ethics.
- The good and bad practices bilateral and multilateral donors on public health stewardship and on the performance of health care systems.
- Case studies of the positive and negative impact of multinational corporations on health policy.

**See attached document for more information on submitting case studies**

**Other ways to get involved**

- Translation
- Launching the report in your country/ region
- Produce an accompanying country or regional paper or report
- Funding or fundraising
